

West Donegal Township Residents

This is your Trash Cart and All In One Recycling cart from Republic Services. After January 1st, trash and recycling collection will occur with these new Republic Services carts you've just received. These carts are provided at no additional cost to you, it's part of the new contract where Republic Services was the lowest bidder during the West Donegal Township bid. Please don't start using these carts till after your last service with Waste Management the last week of December as their trucks may not be able to handle these carts.

Please ensure your trash and recycling are out for pickup the night before service, which will be either Monday or Tuesday depending on your address which you can see on the mailer we will be sending out.

When placing your trash and recycling carts out for pickup, please ensure that the carts are at least 3 feet apart and are also at least 3 feet from any stationary objects like mailboxes, walls, vehicles or trees. The carts should also be placed with the handles facing toward your house so that the side that opens is facing the road.

Because we will be servicing carts with automated trucks and need to have room for the claw to grab the carts to dump them, it's important that you keep this 3 ft. of space around the carts. We understand street parking may not allow this for some residents but please do your best to make carts as accessible as possible.
