

Woody Waste & Yard Waste Schedule - Begins April 11 & 12 through December 5 & 6. Yard Waste must be in Kraft bags available at the Township office. If you have had Kraft bags sitting out from last year, please rebag them to avoid the bottom falling out due to being in the weather elements. Reminder that **grass clippings (from mowing) are NOT yard waste & should not be placed in Kraft bags.** For additional information or questions, please contact the Township office. Woody waste should be bundled with biodegradable twine, not longer than 4' in length nor more than 6" in diameter. These items should be placed curbside the night before with your trash & recycling but will be picked up by a separate truck.
